Best

WARRANTY^	GM Genuine Parts OE
	<ul style="list-style-type: none"> • GM engineers spent many years developing, testing, and validating brake pad solutions for your GM vehicle • OE brake pads are specifically designed to work with the GM vehicle safety systems, such as electronic traction control and anti-lock brakes • OE pads have strict requirements for brake squeal noise. Aftermarket parts are not required to meet any requirement for noise in a GM vehicle • Performance characteristics, such as pedal feel, stopping distance and noise match GM's original equipment

Better

WARRANTY^	ACDelco Gold
	<ul style="list-style-type: none"> • ACDelco Gold pads are the high-quality alternative to OE parts. • Gold pads are a smart choice for General Motors vehicles, as well as most other makes and models • Gold brake pads match the GM OE pad design to deliver optimal performance and noise suppression • ACDelco Gold pads must comply with a rigorous quality approval process and are backed by GM

Good

WARRANTY^	ACDelco Silver
	<ul style="list-style-type: none"> • ACDelco Silver pads are a quality high-value option for General Motors vehicles as well as most other makes and models • Silver pads follow essential OE designs that help diminish noise, vibration, and braking harshness • Basic testing, effectiveness evaluation • ACDelco Gold pads must comply with a rigorous quality approval process and are backed by GM

Brake Rotors

OE GOLD SILVER

Scan to see more information on brakes and other products!

GM Genuine Parts OE brake rotors are the true OE parts installed during production or validated by General Motors for GM vehicles. ACDelco Gold and Silver brake rotors are GM's aftermarket brake rotors and are backed by GM.

Best

WARRANTY [^]	GM Genuine Parts OE
	<ul style="list-style-type: none"> • Most ACDelco GM OE brake rotors sold in the U.S. are Ferritic Nitro-Carburized, or FNC rotors • The FNC layer provides extra protection against corrosive threats from water, salt and even acid rain • These rotors typically last two times longer, compared to non-FNC rotors, due to improved pad wear behavior • OE brake systems and components are required to meet Federal Motor Vehicle Safety Standards (FMVSS). Aftermarket brake parts are not required to meet FMVSS

Better

WARRANTY [^]	ACDelco Gold
	<ul style="list-style-type: none"> • ACDelco Gold rotors are the high-quality alternative to OE parts. Gold rotors are a smart choice for General Motors vehicles, as well as most other makes and models • COOL SHIELD™ Coating – Entire rotor surface including edges and vanes have a baked-on zinc coating for durability • Follows original manufacturers' designs for dispersing heat, helping to prolong rotor life while reducing noise and vibration • ACDelco Gold rotors must comply with a rigorous quality approval process and are backed by GM

Good

WARRANTY [^]	ACDelco Silver
	<ul style="list-style-type: none"> • ACDelco Silver brake rotors are a quality high value option for General Motors vehicles as well as most other makes and models • Brake plate thickness matches OE specifications • ACDelco Silver rotors must comply with a rigorous quality approval process so they are backed by GM
