

Engine Air Filters

OE

GOLD

The ACDelco GM OE engine air filter is the **true Original Equipment (OE)** part installed during the production of your GM vehicle. Our ACDelco Gold line offers a full line of **premium aftermarket engine air filters** for GM and non-GM vehicles.

The ACDelco GM OE engine air filters are specifically designed and engineered to help today's GM engines continue to run smoothly.

- If equipped, most new GM vehicles have the GM Air Filter Life System. This feature provides an indication of when to change the engine air filter.
- Replace the engine air filter when the **REPLACE NOW** message displays on the Driver Information Center (DIC). This should be done as soon as possible within the next 600 miles (1,000 km). The system must be reset after the engine air filter is changed.
- **REPLACE AT NEXT OIL CHANGE** message displays, this indicates that the engine air filter change is necessary at the next engine oil change.
- Refer to the owner's manual for vehicle specific filter change intervals

ACDelco Gold engine air filters are the high-quality alternative to OE parts backed by General Motors. These filters are manufactured to meet your expectations for fit, form, and function. Making them a smart choice for General Motors vehicles as well as **all makes and models**.

- Refer to the owner's manual for vehicle specific filter change intervals

Engine Air Filter – Chevrolet Silverado- 5.3L V8
