ADVANCED DIAGNOSTIC SUPPORT WITH TECHLINE CONNECT AND Si

To maximize your shop's potential, you need cutting-edge diagnostic technology and resources. It's our goal to provide you with everything you need to get the job done right, with the appropriate tools at your fingertips. Below you can explore the diagnostic program resources, equipment, and additional benefits GM has to offer.

PROGRAMS

Our programs can help provide you with the information and tools you need for safe, proper repairs.

TECHLINE CONNECT

Techline Connect (formerly TIS2Web) is the internet-based subscription service for GM vehicle calibrations, Global Diagnostic System software, and scan tool hardware updates. This single application covers all technical problems accurately and efficiently by integrating Service Information, programming, and scan tool diagnostics into a one-stop shop.

BENEFITS:

- Helps improve profits by bringing diagnostics and repairs in-house
- Saves time by helping to diagnose GM vehicles quickly and accurately
- Quickly looks up vehicle calibrations.
- Provides access to trained experts for time-sensitive issues related to the operation of GM software
- Offers multiple subscription options to better fit your service and diagnostics needs. See subscription options at www.acdelcotds.com/subscriptions.
- Compatible with a variety of GM makes and models

Participants in my GM Partner Perks may be eligible for additional discounts.

Si (SERVICE INFORMATION)

Keep your shop informed and up to date with the most current and accurate repair data. Service Information, or Si, is a comprehensive collection of vehicle diagnostic and service repair manuals for GM vehicles—so your shop has everything you need to perform safe, proper repairs.

BENEFITS:

- Provides the most accurate and current repair information, to GM Original Equipment quality standards
- Delivers collision-repair procedures, frame-sectioning information, panel-replacement procedures, and recall information
- Empowers your shop with service repair information to repair GM vehicles quickly and accurately
- Speeds up service repairs and controls costs by helping you complete jobs correctly the first time
- Features an expansive library of information that covers vehicle manuals, specifications, service bulletins, VIN tags, and more

SUBSCRIPTION INCLUDES:

- GM Vehicle Diagnostic Service (1998-present)
- Collision Repair Manuals (1998-present)
- Frame-sectioning information, panel-replacement procedures, and recall information
- Campaigns, service bulletins, and preliminary information for GM (1980-present)
- GM Owner's Manuals and glove box supplements (2003-present)
- Easy-to-use keyword/document/number search

SUBSCRIPTION OPTIONS:

- $20 for 3 days
- $150 per month
- $1,200 per year
- $900–Perks+ and Pro Perks++ members are eligible for a discounted price of $900 per year (regularly $1,200)
    - Program discount is not available to subscribers in Massachusetts
- CONNECTION users can receive Si at no charge by purchasing a minimum monthly target of ACDelco parts. Learn more at https://www.gmparts.com/professional-rebates.

Participants in my GM Partner Perks and/or CONNECTION may be eligible for additional discounts. View online at https://www.gmparts.com/technical-resources/diagnostic-support-resources#additionalbenefits.

ADVANCED DIAGNOSTIC SUPPORT WITH TECHLINE CONNECT AND Si

To maximize your shop's potential, you need cutting-edge diagnostic technology and resources. It's our goal to provide you with everything you need to get the job done right, with the appropriate tools at your fingertips. Below you can explore the diagnostic program resources, equipment, and additional benefits GM has to offer.

DIAGNOSTIC RESOURCES

In order to take advantage of everything our programs have to offer, you'll also need some of our state-of-the-art diagnostic equipment. These tools work together with all the resources provided by your programs, so you can have the complete package for vehicle repairs. To help you break it down, we've detailed the features of each tool below.

MDI2 (MULTIPLE DIAGNOSTIC INTERFACE 2)

MDI2 is a GM Global Diagnostic Interface tool for both current and future GM vehicles that allows Techline Connect to communicate with a GM vehicle. This tool is required to diagnose some newer GM vehicles (starting with model year 2021). 2010 and newer GM vehicles require GDS2 software running on a local computer while MDI2 is connected to the vehicle. A Techline Connect subscription is necessary to run this tool.

NEXT-GENERATION BENEFITS:

- Increased processing power for quicker data transfers
- Performs Pass-Thru programming on all GM vehicles built since 1996
- New wireless connection options eliminate access point or IT support
- Compact design for easy handling and storage

AFTERMARKET KIT # EL-52100-AM INCLUDES:

- MDI2 Device
- DLC Cable
- USB Cable
- Ethernet Cable

MDI2 FEATURES:

- Wireless connection
- High-speed USB 2.0 connection
- Operation during engine crank
- Extended temperature range
- Enclosure design
- Vehicle communication protocol coverage
- DCL cable
- New hardware expansion capabilities

To order the MDI2 Aftermarket Kit, call 1-800-GM-TOOLS or visit www.gmtoolsandequipment.com.

SPS (SERVICE PROGRAMMING SYSTEM)

SPS is the software application that communicates with the vehicle through MDI2 to update and/or program control modules within the vehicle. View more at https://tis2web.service.gm.com/tis2web.

GDS2 (GLOBAL DIAGNOSTIC SYSTEM 2) AND TECH2WIN

GDS2 is the diagnostic scan tool required to use MDI2. It allows technicians to scan the vehicle for data and trouble codes. GDS2 is supported in 2014 and newer models. Support on earlier model year vehicles varies between Tech2Win and GDS2 software.

CAPABILITIES IN MULTIPLE LANGUAGES INCLUDE:

- Read codes, code status, freeze frame data, and clear codes
- Read VIN, ECU part numbers, and software numbers
- Record, store, and replay stored data
- Control and monitor output control functions
- Configure and reset functions
- Record or display history of previous vehicle diagnostic sessions
