

If you suspect that your ACDelco replacement battery is not functioning properly, try taking your vehicle to an <u>ACDelco Independent Service Center</u> or <u>ACDelco Parts Retailer</u>. The experts there can identify the specific cause of the problem. Visit our <u>Batteries</u> detail page for additional product information.

FREQUENTLY ASKED QUESTIONS

What is the warranty on the battery that came with my GM vehicle?

- The original equipment battery that comes with a new GM vehicle or is replaced under warranty is covered by the limited vehicle warranty of 3 years or 36,000 miles, whichever comes first, for Chevrolet and GMC; or for 4 years or 50,000 miles, whichever comes first, for Cadillac and Buick. Warranted batteries should be taken back to any GM dealership. (See your owner's manual for more information).
- The ACDelco replacement battery warranty is for the original battery purchaser and is not transferable; the battery should be returned to the Independent Service Center or ACDelco Parts Retailer with the receipt for warranty consideration.

Where can I find a warranty-covered replacement battery?

 You can find a local ACDelco parts retailer through the <u>ACDelco Parts Retailer</u> or <u>Independent Service Center</u> online locators or call 1-800-ACDelco and one of our friendly representatives will help you locate a retailer/service center in your area.

How do I read the warranty date code on my battery?

• The warranty date code is located on the top label of the battery. The first character is a letter for battery make, followed by 3 numeric digits. The first two digits determine the month, and the third digit is year. The fifth character indicates the manufacturing plant. For example, P097N means the battery was made in September 2017.
